

Deep-Dive on Your Stakeholders

Using whatever information that you have, fill-up the following table.

- **Who are your stakeholders?** Identify up to 5.
- **What** does he do in relation to your domain/topic?
- **How** does he affect/influence your domain/topic?
- **Why** does he act the way he does in relation to your domain/topic?

Stakeholder	What does he/she do in relation to your domain/topic?	How does he/she affect or influence your domain/topic?	Why does he/she act the way he/she does in relation to your domain/topic?
Cebu Premiere Real Estate (Focal Stakeholder)	Operates in property development and sales, handling pricing, marketing, and valuation of real estate properties.	Influences how property prices are set and presented to clients, affecting market competitiveness and buyer trust.	To achieve fair yet profitable valuations that reflect true market trends, improving transparency and business credibility.
Real Estate Appraisers / Brokers	Conduct property appraisals and facilitate transactions.	Directly influence property price perception and negotiation outcomes.	To align with market standards while maximizing client satisfaction and commissions.
Property Buyers / Investors	Purchase or invest in properties within Cebu.	Their purchasing decisions are shaped by valuation accuracy and trust in appraisals.	To ensure that property prices reflect true value and provide a worthwhile investment.
Banks / Financial Institutions	Provide loans and mortgages based on appraised property values.	Affect the liquidity of the market and how accessible real estate financing is.	To minimize lending risk and ensure that property values align with collateral worth.
Government Agencies (BIR, etc.)	Set zonal valuations and oversee taxation based on assessed values.	Influence market baselines and policy standards for property pricing.	To regulate market fairness and maintain consistent valuation for public revenue.
